

DTx, Inc. is based in Melbourne, Florida and specializes in providing embedded computing solutions for medical device manufacturers.

Unlike mass-produced technology like cell-phones or personal computers, medical device makers must adhere to strict regulatory requirements. DTx's unique Planned Technology Control™ Program resists the rapid changes in commercial technology that can jeopardize regulatory certifications by constantly tracking even the smallest components.

DTx delivers stable, managed computing solutions whose life cycles far exceed commercial marketplace offerings. Services include custom product design and development, conformance engineering, manufacturing, supply chain management, product warranty and life cycle management.
